Subject: Contact information

I apologize for taking so long to email you. I was called off in an emergency just after we spoke.

I would greatly appreciate it if you could contact Harry Allen at EPA and Jamie Rayman at atsdr at the Emil's above.

Our data is at the EPA Gold King website. I believe the map is there too but if not let me know.

Harry and Jamie- Glenda is the director of the livestock program here and would be the best person to talk with regarding potential impacts to nomads from the spill.

Her cell number is 928-221-8711.

Again I'm sorry for my very limited time at present.
